VANTIQ

Intelligence at work™

Road monitoring

Drone serveillance

Disaster city

Micro-weather intelligence

Intersection safety

Wildfire detection and response

Active digital twin

Emergency services & dispatch

Intrusion detection

Real-time healthcare orchestration

Multi domain integration

Smart building and campus

VANTIQ
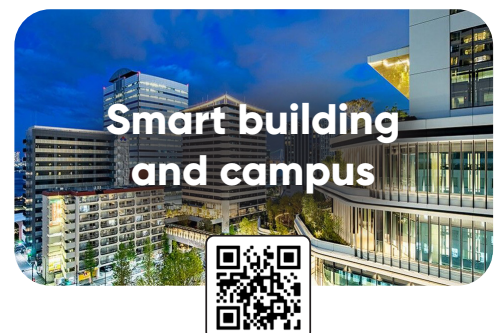

Next generation platform for intelligent real-time applications

Real-time computing — Processes high-velocity data in real-time for instant, lifesaving decisions

Simultaneous AI models — Runs multiple AI models simultaneously, enhancing situational awareness and decision making

Seamless integration & quick deployment — Integrates smoothly with existing systems and is quick to set up, saving time and costs

Orchestrated intelligence and business actions — Automates how AI agents collaborate with humans to optimally respond to a situation of interest

Reliable & trustworthy — Patented technology ensures reliable AI performance with minimal hallucinations

Flexible and distributed deployment — Runs anywhere from Edge to Cloud to optimize performance, scalability, and data privacy

Agile and scalable — Solutions can be rapidly developed in days to weeks and then easily scaled to large mission critical deployments
